

Insurance Recovery, Counseling & Litigation

Lippes Mathias' Insurance Recovery, Counseling & Litigation Practice Team assists clients in resolving complex coverage disputes, securing carrier participation in defense and settlement of claims, and maximizing insurance recoveries. Our attorneys have successfully handled high-stakes insurance coverage litigation and related bankruptcy proceedings, and have represented clients in sophisticated mediations in state and federal courts nationwide. We provide guidance to clients when an insurance company has denied them coverage, reserved its rights, or refused to take a position on a claim, and they turn to us when facing a lawsuit, or when considering commencing their own legal action.

Our Team proactively counsels clients on insurance-related issues, including analyzing coverage for claims, evaluating corporate insurance programs and policies for potential coverage gaps, tailoring insurance programs to meet clients' unique risks, negotiating favorable policy wording, and drafting contractual indemnity and insurance requirements.

Our experience includes all lines and types of coverage, including:

- general liability
- excess/umbrella
- professional
- pollution
- cyber
- auto
- property
- builders risk
- employee dishonesty
- directors and officers, and
- wrap-up programs.

We strive to help clients avoid coverage issues and maximize insurance recoveries, protect their balance sheets, and minimize administrative burdens, so they can focus on running their businesses. We regularly collaborate with
